Discovery’s flagship is its 100%-owned Cordero silver project in Chihuahua State, Mexico. The 37,000-hectare property covers an entire porphyry district that hosts the announced resource and numerous exploration targets for bulk tonnage diatreme-hosted, porphyry-style, and carbonate replacement deposits. In addition, Discovery is focused on discovering and advancing multiple high-grade carbonate replacement-style silver-zinc-lead projects in a land package of approximately 150,000 hectares in Coahuila State, Mexico. The land holdings contain numerous historical direct-ship ore workings and significant underground development, but no drill-testing has ever been carried out on them.
