ABOUT DISCOVERY

Discovery is a growing North American precious metals company. The Company has exposure to silver through its first asset, the 100%-owned Cordero project, one of the world’s largest undeveloped silver deposits, which is located close to infrastructure in a prolific mining belt in Chihuahua State, Mexico. On January 27, 2025, Discovery announced an agreement to acquire a 100% interest in the Porcupine Complex from a subsidiary of Newmont Corporation. The addition of the Porcupine Complex will transform the Company into a Canadian gold producer with multiple operations in one of the world’s most renowned gold camps in and near Timmins, Ontario, with a large base of Mineral Resources remaining and substantial growth and exploration upside. The Acquisition is expected to close in the first half of 2025.

On Behalf of the Board of Directors,
